

ELECTRICAL COMPONENTS

ALL-MAKES HEAVY-DUTY ELECTRICAL COMPONENTS

With parts and accessories for all makes and models¹, Alliance Parts is the smartest choice for value on the road. Readily available, easily affordable and assured in quality, Alliance has everything you need to deliver.

PARTS NUMBERING SYSTEM

All part numbers in this program contain the prefix ABP, followed by N53, N55 or N54B (the company-assigned codes for this program). The remaining digits are based on part and design.

Example – ABP N55 BU2000

All Alliance Parts products in the catalog are set up with an Alliance part number. In the back of this catalog, you will find an extensive cross-reference list. This will help link another manufacturer's part to an Alliance ABP number.

WARRANTY

Alliance products are backed by a 1-year/unlimited-mile standard warranty. Additional warranty coverage may apply where specified.

Illustrations and photographs used in this catalog may vary slightly from the actual product. Prototype samples are sometimes used for photography. The production parts may vary slightly.

Availability of products shown in this catalog is subject to change without notice.
