REMAN

DPFs - Diesel Particulate Filters

Detroit 1-Box & Medium Duty Aftertreatment Systems | Heavy & Medium Duty Engines

Detroit Reman's proprietary Liquid Cleaning Process is proven to consistently remove 95% or more of accumulated ash. All Detroit Reman DPFs last the original service interval specified for your vehicle without compromising on performance. The exchange program ensures DPFs are ready to install and are kitted with the necessary clamps & gaskets.

Detroit Genuine, Reman & Alliance DPF Cross Reference File

Product Highlights

Full Service Interval

Heavy Duty Detroit Reman DPFs **last for 300,000 - 500,000 miles** prior to hitting the next cleaning interval, contrary to less effective alternatives, which typically recommend cleaning the same DPF after only 100,000 miles.

Clamps & Gaskets Included

Everything you need is included without hidden costs.

Fast Service

DPFs are **readily available for installation**, no waiting for cleaning in the shop.

Quality Assurance & Consistency

Detroit Reman's standardized Liquid Cleaning Process with trained operators ensures a **minimum of 95% of ash is consistently removed**, and OEM performance is maintained.

Nationwide Availability Including California

Over 800 authorized locations including California providing unmatched nationwide availability, and supporting our commitment to quality and performance for Detroit customers. This program is especially attractive for fleets looking to **reduce shipping & handling cost** associated with DPF Maintenance alternatives.

Is it cheaper to have my DPF cleaned in the shop?

Detroit Reman DPFs are the cheaper and higher quality option in the long run.

Cleaning equipment manufacturers recommend cleaning every 100K miles which is more costly over time. Process variation between shops using this equipment also makes for inconsistent cleaning results and intervals.

Detroit Reman DPFs perform the same as new. Detroit Reman's proprietary liquid cleaning process is designed, tested, and proven to guarantee DPFs that will perform the same as new.

The Reman program was developed with uptime in mind. Reman DPFs are ready for installation at over 800 locations including California, kitted with clamps & gaskets, and come with a 1 Year Unlimited Mile Warranty.

Many fleets have realized substantial logistics savings with the Detroit Reman program because they do not have to consolidate and ship DPFs to and from a single location for cleaning.

Is it better to buy a New Aftermarket replacement?

Not necessarily...

Aftermarket units are more expensive because they are intended to replace damaged filters, they are not a cost effective alternative to DPF Cleaning. The most cost effective cleaning option is Detroit Reman's DPF exchange.

Detroit Reman DPFs perform the same as new. Detroit Reman's proprietary liquid cleaning process is designed, tested, and proven to guarantee DPFs that will perform the same as new.

Detroit Reman DPFs are Genuine, meeting all design standards set forth by the OEM to foster proper Aftertreatment System performance and come backed by a 1 Year Unlimited Mile Warranty.

Aftermarket replacements are not available for sale in California. Popular replacements are not permitted for sale in the state of California, making Detroit Reman DPFs the superior choice in terms of availability.

| | CLEANING IN THE SHOP | DETROIT REMAN DPFs |
