

### WHY IS A CHARGE AIR COOLER SO INTEGRAL TO THE PERFORMANCE OF YOUR ENGINE? MORE POWER. LESS FUEL.

A Charge Air Cooler takes hot air from the turbo and cools it. This lowered intake air temperature increases the output of the engine and engine efficiency. Quite simply, less fuel for more power. A Charge Air Cooler can not only increase your output and fuel savings, but it can also prolong the life of your engine.

### **7 YEAR, MILLION MILE GUARANTEE**

#### **DURA-LITE<sup>™</sup> EVOLUTION® WARRANTY**

- 7 Year/ 1,000,000 Mile Warranty on most Charge Air Coolers.
- · North American Wide Warranty Coverage.
- · Less than 1% warranty return.

# STAY OUT OF THE SHOP, STAY ON THE ROAD WITH THE MOST RELIABLE CHARGE AIR COOLER IN THE WORLD.

# **MORE POWER. LESS FUEL.**

**THE DURA-LITE<sup>™</sup> DIFFERENCE** Patented High Temperature Silicone Grommet Tube-To-Header Seal System

**TYPICAL CHARGE AIR COOLER** Thermal Fatigue Failure From Expansion and Contraction

# Charge Air Cooler Test Kit

# Part Number: DHT TESTKIT (for all makes and models)

## THE ONLY WAY TO DETERMINE IF A CHARGE AIR COOLER IS LEAKING, IS TO DO A PRESSURE TEST.

## ASK THE SERVICE DEPARTMENT TO TEST YOUR CHARGE AIR COOLER TODAY!

VISIT MANUFACTURER'S WEBSITE (CANADA DEALERS) (https://can.duralite.net/)

Product Outline PowerPoint

**Dura-Lite PowerPoint Presentation** 

#### **Product Highlights**

#### Flexible tube to header joint

OEM and other aftermarket coolers often crack at the rigid tube to header joint. Dura-Lite has replaced this rigid joint with our Patented High Temperature Silicone Grommet Tube-To-Header Seal System. This provides a long, leak free Charge Air Cooler life.

#### Continuous, consistent fuel economy

Engineered for performance, economy, and durability (longevity). EPA certified (where required).

#### **Thoroughly tested**

Dyno tested to assure the highest performance. Each cooler is pressurized and tested under water to assure it is 100% leak free before leaving the factory.

#### Tanks are reinforced to reduce premature failures

Superior quality and the best warranty in the industry reduce downtime.

#### **Top Movers - Evolution Charge Air Coolers**

From day one, Dura-Lite<sup>™</sup> has been committed to solving the Charge Air Cooler durability problems vehicle owner/ operators face. When Dura-Lite<sup>™</sup> started on this project, we knew that we had to engineer a Charge Air Cooler that met the required OE engine performance specifications. We also knew we had to produce a Charge Air Cooler which would last - not for months or a couple of years, but for many years! This commitment to Quality and Excellence placed Dura-Lite<sup>™</sup> in a unique position. While other Charge Air Cooler manufacturers were attempting to improve upon the typical Charge Air Cooler thermal fatigue failure (OE design), Dura-Lite<sup>™</sup> took another approach.

Dura-Lite<sup>™</sup> engineered a Charge Air Cooler incorporating our Patented Silicone Grommet Tube-to-Header Seal System in place of the traditional brazed / welded tube to header joint. The silicone grommets allow for free thermal expansion while maintaining a leak free seal. This free thermal expansion eliminates the stress and premature failures associated with a restrained brazed / welded tube to header joint. Strain tests, thermal cycle tests, dynamometer tests, durability tests at elevated temperatures, and field tests were conducted. Dura-Lite<sup>™</sup> coolers produced outstanding results and confirmed that our engineers had, indeed, found the solution to eliminating premature Charge Air Cooler failure.

#### Warranty Information

- 7 Year Million Mile Warranty (On most part numbers)
- North American Warranty Coverage
- Less than 1% warranty return
