HEAVY DUTY SYSTEMS

PowerPro[®] & PowerPro[®] Extreme Starters

PowerPro[®] and PowerPro[®] Extreme high-torque heavy duty starters feature exclusive technologies that help reduce operating costs, increase production and decrease downtime.

PowerPro® 7 Starters

Media not found

Product Highlights (PowerPro® 7 Starters)

Overcrank Protection (Optional)

Protects the motor in any operating condition for a reliable start anywhere, any time

Robust Armature Design

Reduces power losses & provides higher reliability for more consistent performance

Heavy Duty Brush Plate

Improves performance through increased surface area & better conductivity

High Power Rating

Faster, more efficient crank & source of power

Soft Start Relay

Helps eliminate ring gear damage

Integral Magnetic Switch (IMS)

Helps eliminate voltage drop issues by minimizing wiring between the relay & solenoid

Sealed Nose Housing

Adds service life & protects internal components

Performance eCoating

Superior corrosion resistance**

Rotatable Flange

Ideal for reduced inventory & maximum profit opportunities**

** eCoating and Rotatable Flange not available on M110608

PowerPro® Extreme 5 Starters

Media not found

Product Highlights (PowerPro® Extreme 5 Starters)

Robust Armature Design

Reduces power loss & provides higher reliability for more consistent performance

Soft Start Relay

Ensures positive pinion engagement with the flywheel & reduces potential for ring gear damage

Integral Magnetic Switch (IMS)

Helps eliminate voltage drop issues by minimizing the ring distance between relay & solenoid

Fully Sealed Noseless Design

Adds service life & protects internal components
